Data collected on the basis of consent

Upon your request and expression of consent, we collect the following data for the purpose of providing services to you. Your data is not used for any other purposes or shared with third parties. It is removed upon your withdrawal of consent or your request to terminate these services.

Comments

Name, email address, content of the comment: this data is collected when you leave a comment and displayed on the Website.

If you leave a comment on the Website, your name and email address will also be saved in cookies. These are for your convenience so that you do not have to fill in your details again when you leave another comment. These cookies will be saved on your computer until you delete them.

IP and browser user agent string: this data is collected when you leave a comment.

Retention period: the aforementioned data is retained indefinitely so we can recognize and approve any follow-up comments automatically instead of holding them in a moderation queue.

Data collected on the basis of legitimate interest

Based on our legitimate interests, we collect the following data for the purpose of running this website. Your data is not used for any other purposes or shared with third parties. It is removed upon your request.

Statistics

The website uses a minimal build of Google Analytics, a service which transmits website traffic data to Google servers in the United States and allows us to notice trends to improve the user experience on our website. This minimal build processes personal data such as: the unique User ID set by Google Analytics, the date and time, the title of the page being viewed, the URL of the page being viewed, the URL of the page that was viewed prior to the current page, the screen resolution, the time in local timezone, the files that were clicked on and downloaded, the links clicked on to an outside domain, the type of device, and the country, region, and city.

The website uses a minimal build of Baidu Analytics, a service which transmits website traffic data to Baidu servers in the China and allows us to notice trends to improve the user
